You asked one question.

This is what happened next.

PATIENT INFORMATION LEAFLET

They only asked how your weekend was.

You explained the porridge, the weather, the headwind and why the final average was misleading.

The Normal Conversation Rehabilitation Service has prepared this manual for runners whose training now occupies meals, holidays and the first twelve minutes of any conversation.

Includes diagnostic tests, conversation exercises and a certificate of conditional discharge.

Give it to the runner who already knows who they are.

INSIDE THIS MANUAL

- A severity test for Runner's Conversational Capture
- 36 exercises, quizzes and worksheets
- A cut-out emergency conversation card
- A certificate of conditional discharge

SIDE EFFECTS MAY INCLUDE

Listening. Eye contact. Knowing the name of a colleague's partner. Answering "How was your weekend?" in under twenty minutes.

HUMOUR · GIFT

FOR THE RUNNER WHO HAS ALREADY TOLD YOU THEIR 10K TIME
